Mon, January 14 | 7:00am - 9:00am | Location: Russian River Valley I

SPECIAL EVENT:

### General Session – Welcome to SANS

Speaker: Frank Kim

Mon, January 14 | 8:00am - 8:30am | Location: Russian River Valley II

Join us for a 30-minute overview to help you get the most out of your SANS training experience. You will receive event information and learn about programs and resources offered by SANS. This brief session will answer many questions and get your training off to a great start. This session will be valuable to all attendees but is highly recommended for first-time attendees.

KEYNOTE:

### 492063616E207374696C6C2073656520796F7521

Speaker: Jonathan Ham

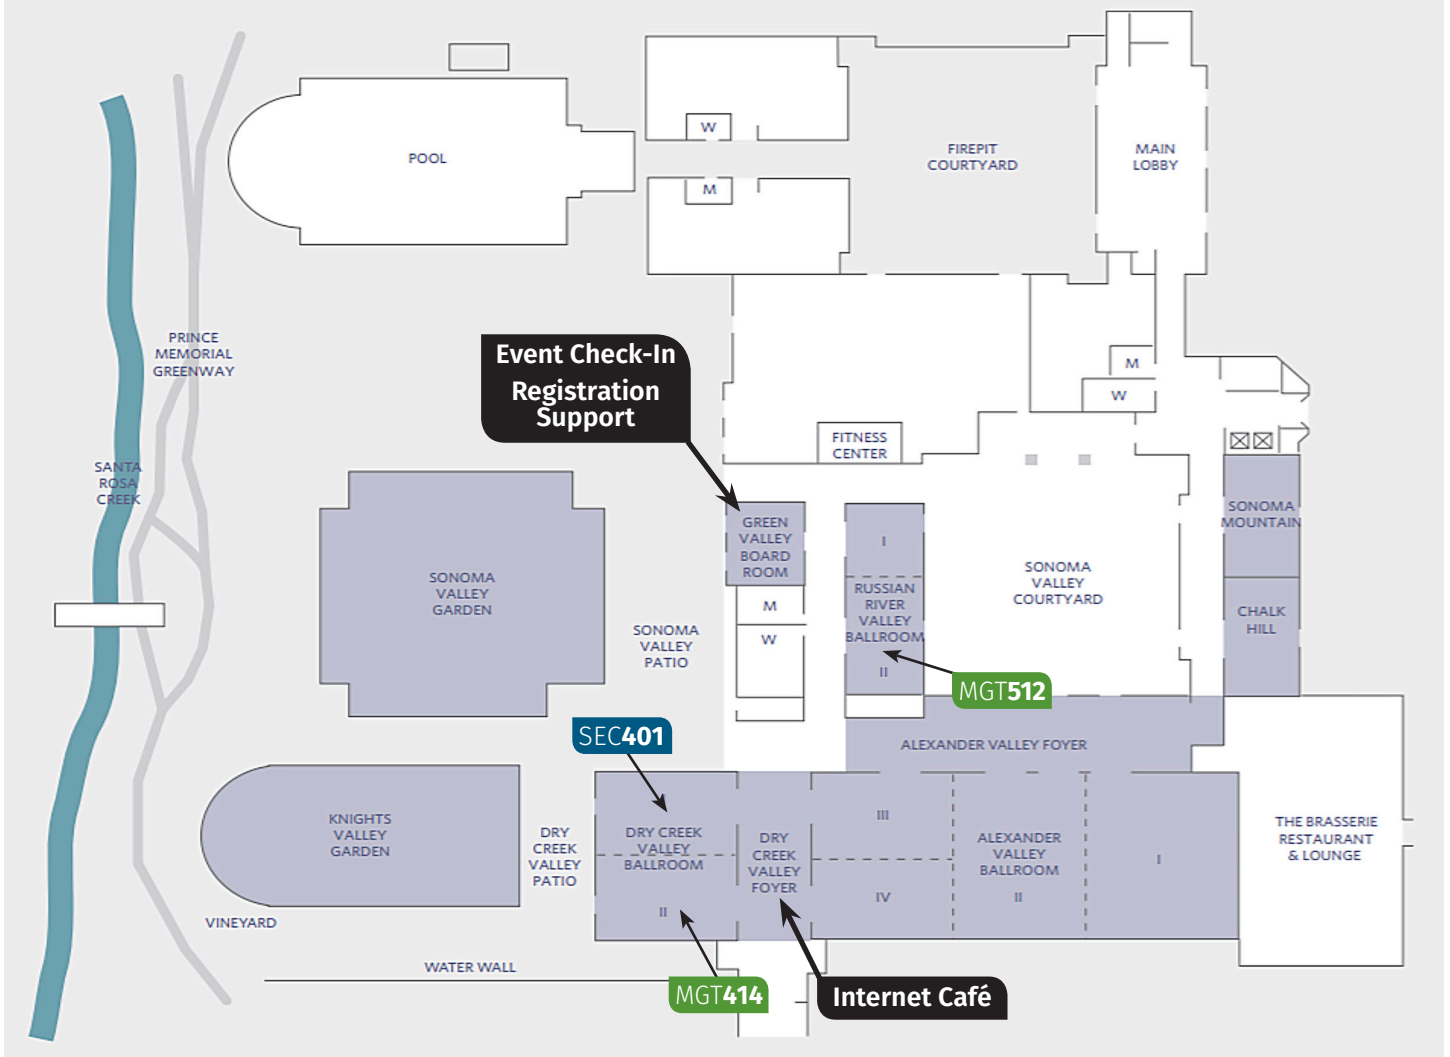

Mon, January 14 | 7:15pm - 9:15pm | Location: Dry Creek Valley II

Everything leaves footprints on the network, whether it's a frontal assault on an Internet-facing SMB, or a lateral move living off the land with harvested creds. The Red Team only has the advantage up until the window breaks (I heard that!). Once you are in my house, I have the advantage (I know that squeaky floorboard!). Here's what it looks like when you think you can steal my stuff.

Obfuscate your Powershell 10x. Drop PEs via DDE and Word macros. DLL inject mimikatz. Evade AV. Fine. But to MitM you have to mess with L2/L3, and to move laterally you have to do things on L3/L4 that shouldn't be happening.

And, when you do, I can still see you.
