SANS Seattle Spring 2020

March 23-28

Gain the skills to defend your organization against security breaches and prevent future attacks.

“I have taken several SANS training courses and feel that I’ve walked out better prepared (dare I say ‘leveled up’) to handle my day-to-day tasks. I also feel that SANS courses give great insight into things you might be missing, and great perspectives from instructors who actually work in the field.” -Shane Wolfe, Space Telescope Science Institute
