SANS Cyber Solutions Fest 2020

Solving Your Cybersecurity Challenges

This action packed 2-day virtual event brings together an ensemble of security professionals, solution providers, gurus and experts ready to share the latest developments and innovative technologies in the cybersecurity industry. Featuring 4 unique tracks chaired by top SANS experts, talks will feature case studies, demos, and discussions revolving around solutions available in the marketplace.

Join the SANS Cyber Solutions Fest and discover what can be achieved in the field of cybersecurity and the implementation of new technology.

Become a Sponsor

- ▶ Each of our sponsorship levels includes a speaking opportunity. Gold sponsors and above have the opportunity to speak on one of our track's agenda and deliver a thought leadership session to their target audience. Silver sponsors can present a 20-minute Tech Talk breakout session.
- ▶ Our virtual networking space will be housed in Slack, where sponsors will have their own personal chatroom to update attendees on the latest news, promote their upcoming talks, and interact with security professionals seeking more information on their product and services.

Promote your company's name and actively showcase your solutions to organizations who are looking to improve their overall security. Sponsorship packages are limited and are a first come first served basis.
