

High Impact Cybersecurity Training

Stay Sharp with
1-, 2- & 3-Day Courses

STAY SHARP

SANS | **GIAC**
CERTIFICATIONS

With the convergence of work responsibilities and home life, many cybersecurity professionals struggle to find the time to advance their skills.

That's why we've created the SANS Stay Sharp Series of short courses held during events focused explicitly on Security Management, Blue Team Operations, Penetration Testing, and Cloud Defense. This series of 1 to 3 day courses will equip your team with in-depth technical knowledge and specific job skills for critical cybersecurity focus areas.

Whether you manage a team of seasoned professionals or new cyber recruits, SANS Stay Sharp training is the perfect way to quickly build practical cyber skills that will get the job done.

“With SANS, I know I am getting the best information security training in the industry, and that continues to be the case with SANS Live Online!”

— Harold (Chip) Stockton,
Global Payments, Inc.

What are SANS Stay Sharp Short Courses?

- SANS quality training delivered over 1, 2, or 3 days
- Targeted for specific technical knowledge and skills
- Virtual training delivered Live Online
- Instructor-led courses featuring the world's leading cybersecurity professionals
- Four months of access to the recorded course lectures

SANS The most trusted source for
cybersecurity training, certifications,
degrees, and research
