

High Impact Cybersecurity Training

Stay Sharp with
1-, 2- & 3-Day Courses

STAY SHARP

SANS | **GIAC**
CERTIFICATIONS

With the convergence of work responsibilities and home life, many cybersecurity professionals struggle to find the time to advance their skills.

That's why we've created the SANS Stay Sharp Series of short courses. This new series of 1- to 3-day courses will equip your team with in-depth technical knowledge and specific job skills for critical cybersecurity focus areas.

Whether you manage a team of seasoned professionals or new cyber recruits, SANS Stay Sharp training is the perfect way to quickly build practical cyber skills that will get the job done.

“The content squeezed into two days of this course is more than I could have learned on my own in six months. The resources and materials shared are going to be hugely valuable.”

— Benedict Donaldson,
Dyson

What are SANS Stay Sharp Short Courses?

- High-impact, targeted training at a lower cost
- Targeted training to build specific, real-world skills quickly
- Instructor-led courses featuring the world's leading cybersecurity professionals
- Interactive, virtual training delivered Live Online
- Cost-effective, high-impact courses delivered over 1, 2, or 3 days

SANS The most trusted source for
cybersecurity training, certifications,
degrees, and research
