Live Online 

SANS Live Online: Interactive Cybersecurity Training Delivered Online from Anywhere

SANS is committed to delivering high-quality cybersecurity training so you can keep your skills sharp and stay ahead of cyber threats. Join us for interactive training during SANS Virginia Beach: Virtual Edition 2021 – Live Online (EDT), and receive relevant, applicable training from wherever you are.

“The materials and instructors are excellent and the content is relevant to current security operations in any industry. The combination of labs and NetWars provides hands-on experience that really helps to understand the content.”

—Jerry Bunn, **Digital Realty**

Benefits of Live Online:

- Interactive, live-stream courses taught by real-world practitioners
- Real-time support from virtual TAs
- Dedicated chat channels for networking
- Online CTF events and virtual NetWars
- Hands-on labs in a virtual environment
- Courses include electronic and printed books
- Several courses align with GIAC certifications
- Archive of course lectures uploaded to your account daily during the event
- Four months of access to your course lectures so you can revisit the recordings

Enhance your training experience. Add a GIAC Certification attempt and OnDemand Bundle to your course.

Distinguish yourself as an information security leader and get certified with **GIAC Certifications**. giac.org

Extend your training experience with an **OnDemand Bundle**. Receive four months of supplemental online review and 24/7 online access to your course lectures, materials, quizzes, and labs. sans.org/ondemand/bundles

“The virtual online class recording that is made available is VERY HELPFUL. It helps to revisit the class content and solidify the concepts, lab walkthroughs, and learnings from the class.”

—Venkat Luckyreddy, BMS

“SANS is by far the best InfoSec training available in the world. Every instructor and speaker I have encountered at SANS are straight-up superstars! The knowledge I gained from SANS is invaluable to not only my career personally, but to any company that employs me. Hands-on, real-world application and practice throughout the course allows for a deeper understanding of how our networks can be attacked and how they should be defended.”

—Brian Bailey, West Virginia State Treasurer’s Office
